

Prototype Design

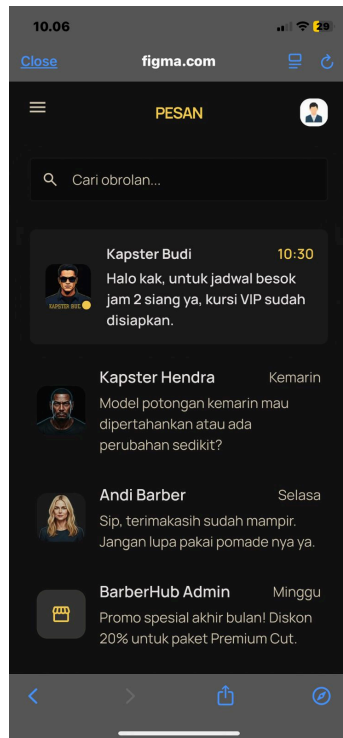

Login Page

Description : The authentication gateway for the BarberHub application. It features a secure entry point requiring a registered email address and password, with additional "Forgot Password" functionality to ensure account accessibility.

Home Page

Description: The primary landing page for an authenticated user. This view displays the user's current "Kredit Kursi" (Seat Credits) balance, details of an upcoming active appointment with a specific barber ("Arif 'The Blade'"), and a critical notification regarding the credit deduction policy for late arrivals or cancellations.

Chat Page

Description: The "Pesan" (Messages) interface facilitating direct communication between customers and barbers. It allows users to search through conversations and view real-time updates from service providers regarding appointment schedules, styling preferences, and promotional offers from the administration.
